What are the programmes:

The education department of the MK Dons Sport and Education Trust (SET) is now funded by the Big Lottery Fund (BLF) and the European Social Fund (ESF) to deliver the Building Better Opportunities (BBO) Support into Employment project.

We realise that every individual is different and we will work with you to provide a personal package of support and guidance that matches your exact needs and we will help you develop your skills and talents in a way that is best for you. You will play a major part in how we deliver this project?

We can support you in many different ways-whether you need that little boost, some extra learning or are in need of specialist support, our education team is here to help!

Why is this for me:

We will be with you on every step of your journey towards employment and we can help you in the following ways:

- ☑ Make a full assessment of your needs and then used this to provide a package of support tailored to your particular situation.
- ☑ This support will involve workshops, getting you qualifications and courses which will help you develop your skills to move closer to employment.
- ☑ We will provide financial support to help you get to courses, events and interviews.
- ☑ We will work with our partners on the project and other partners, including employers, to signpost you to other relevant partners and services.
- ☑ We will provide you with that important in-work support when you start your new job.

How do I get involved:

Any professional that is working with you can refer you to the relevant programme by completing the referral form on our website.

Equally you can self refer to any programme again you need to complete the referral form. You can complete the referral form on our website
