

PARTICIPANT B

Participant B joined the BBO Programme in March 2017. He had been referred to us from MK Probation Services. He was a builder by trade and really wanted to get a forklift license so he could get back to working on-site. As this was a large expense, we decided to work with Participant B for a few months before committing to the training.

He attended every session on time and showed a real desire to move on in his life away from re-offending. We worked to identify the best training course for him, which was situated in Wellingborough. He passed the course first time round and secured a full-time job with a local building company.
