

# PARTICIPANT D

Participant D had been involved with the BBO Project since December 2017. During this time, he faced many barriers which prevented him from gaining employment. He was very friendly but lacked confidence and skills required to gain employment. Initially, Participant D was unsure about his career path, so choosing suitable skills for him was challenging. We ran sessions on basic job skills, with a focus on retail work. During this time, he decided he wanted to gain some work experience in the MK Dons ClubSuperstore. Meetings were arranged and a plan of action was put in place. It has now been agreed that when COVID restrictions lift, Participant D will begin part-time work in the ClubSuperstore.
